The Kiewiet de Jonge Lectureship was replaced by the Kersley Lecturers in 2021.

List of the ECLSO Kersley Lecturers

Once every two years, alternating with the Fick-Kalt-Müller Award, a member of the Society will be invited to give a lecture at the Annual Scientific Congress. The member should already have presented a paper to the Society which was of good scientific content and which would merit a further presentation. The Secretary-General will invite suggestions from the National Representatives 18 months before the date of presentation. The Praesidium will select the speaker from these suggestions.

H.J. Kersley 1939-2000

Nicolas PESCOLIDO (Italy) at the 2003 Congress in Venice

Title: Model of the oxygen distribution across the cornea and contact lens

Roger BUCKLEY (United Kingdom) at the 2005 Congress in London

Title: The corneal endothelium in contact lens wearers
